

Andrey Ershov

Full-Stack developer

Creative, Passionate and Efficient full stack developer

About me

Creative, Passionate and Efficient full stack developer with over 9 years of experience in web, mobile and desktop applications design, development and maintenance. Possesses diverse experience of creating multiple highly scalable applications using different tech stacks. Led successful transition from LAMP Stack to MEAN Stack to reduce development time and improve system performance. Implemented 3D Scene, Virtual Reality with Three.js and Babylon.js. And have hands-on experience in web hosting & maintenance, Browser Automation and testing, Web Scraping & Crawling. Have worked in all phases of the project life cycle, using a wide variety of tools and frameworks.

Education

Bachelor of Computer Science (BCompSc) **Kuban State Technological University** Krasnodar / From 2004 to 2011

Kuban State Technological University, also referred to as the Kuban State University of Technology, is a Russian public technical university located in Krasnodar, one of the first higher educational institutions established in the southern region of Russia.

Relevant Coursework: Operating Systems Architecture, Linux/Unix Programming, Usability in Website and Software Design, C++ Programming, Web Page Development, Relational Database Design & SQL, Data Engineering, Advanced Software Programming

Work experience

Frontend Developer **ASPIRITY** Krasnoyarsk, Russian Federation / From 2015 to 2016

- Implemented responsive web pages and mobile UI from concept through deployment
- Implemented 3D Scene, 3D Animation, Augmented reality(AR) and Virtual Reality(VR) with Three.js and Babylon.js
- Implemented efficient and reusable front-end modules that drive complex web applications

Full Stack Developer **Artezio** Moscow / From 2017 to 2020

- Improved the performance of whole system with efficiency memory usage, multithreading, distributed computing, and other various ideas.
- Developed app integration with RESTful and other APIs for Google Maps, social media logins, payment processors, blockchain wallet, and other services.
- Implemented various bots, browser automation, and automation scripts.
