

**Brent Jeremy Nelson**

I'm a full-stack developer who specialized in everything.

Specially I am a talented blockchain developer .

Have experienced in blockchain more than 3 years

My core skills are Blockchain,Trading,Python,Angular,React... etc. If you are looking for a full-stack blockchain developer who has the best programming skills and delivers high quality sources in a short time, I would be your choice with no regrets.

#### **The benefits you get by working with me:**

You can find me online most of the time for communication, you will be able to see the progress of your project any time you need.

As I developer with my skills and experiences, I ensure you that you will get well structured, clean coded, and full comments in your project.

I provide full maintenance and troubleshooting for the projects.

I deliver all reports and documentations for the projects if needed.

My goal is to provide the best service for my customers. I have always doing my best and work full-time to satisfy my clients.
