There's a calm surrender
To the rush of day
When the heat of a rolling wind
Can be turned away

An enchanted moment
And it sees me through
It's enough for this restless warrior
Just to be with you

And can you feel the love tonight?
It is where we are
It's enough for this wide-eyed wanderer
That we got this far

And can you feel the love tonight?
How it's laid to rest
It's enough to make kings and vagabonds
Believe the very best

There's a time for everyone
If they only learn
That the twisting kaleidoscope
Moves us all in turn

There's a rhyme and reason
To the wild outdoors
When the heart of this star-crossed voyager
Beats in time with yours

And can you feel the love tonight?
It is where we are
It's enough for this wide-eyed wanderer
That we got this far

And can you feel the love tonight?
How it's laid to rest
It's enough to make kings and vagabonds
Believe the very best

I need a short bid proposal for upwork jobs

don't forget to keep these rules:

- should keep 60-80 words and clear
- should be a little informal but a little polite and humble
- should include many many emojis
- should tell "Hi, <client name>" if client name is given
- should provide previous experience (only) if post needs it
- should provide the exact and shortcut way to solve the problem rather than prides
- should limit length, shorten the solution if the length gets increasing
- should answer shortly if I provide a question

Greetings

I strongly believe that I am an excellent fit for the Full Stack Developer position. With a Bachelor's degree in Computer Science and hands-on experience, I possess the technical expertise to develop user-friendly web applications using HTML, CSS, JavaScript, and frameworks like React, Angular, or Vue.js. I have a solid understanding of back-end development principles and proficiency in server-side languages such as Node.js, Python, and Java. Additionally, I am skilled in database management systems, version control systems, and agile methodologies. My problem-solving skills, attention to detail, and commitment to delivering high-quality software solutions make me a valuable team member. Furthermore, my excellent communication and collaboration abilities ensure effective teamwork. I am eager to contribute to your projects and stay updated with emerging technologies.

Sincerely, Kooya

I believe I'm the ideal candidate for this role because I possess strong skills in both frontend and backend development. With my experience in completing various full stack projects, I have honed my problem-solving abilities and can deliver innovative solutions. I am an effective communicator and thrive in collaborative team environments. I have a continuous learning mindset, keeping pace with the latest technologies. Additionally, my attention to detail ensures that I consistently deliver high-quality software.

I am confident that my expertise and qualities make me a perfect match for this position, and I am excited about the opportunity to contribute to your project's success.

Hi, my name is ||Kooya|| (M), I'm from Japan, 20 y.o

I love all my family and friends.

I hate rude people.

`Need help to improve my English`
