SUMMARY

I'm looking for in my next job are a collaborative, team-focused culture, opportunities to learn and grow my skills from a technical standpoint, and a chance to learn more leadership skills over time.

I'm a full stack developer who has experience of 10 years and handled many projects for businesses from startup to large scale. Working as a full stack developer for several years made me to have multiple skills in programming sphere. But I specialize in building Blockchain, MERN stack development.

As for my skills and experience, I have 5 years of experience in Blockchain development and 10 years in full stack Web development.

My experience enables me to make business success of clients. I can bring my successes and experiences to your job. I understand that every project that represents a business plays a very important role in its growth.

Some cool facts about me is that I can work full time for your project on your time zone and I can deliver 100% result. I will devote all my passion for you and your business success.

Thanks for visiting my profile.
