PROFILE

Mobile/Web Frontend Developer,

As an experienced Javascript developer, I have been working on real-world projects +4 years dealing with a wide spectrum of diverse tasks.

I love to build well-structured, clean code and clean repositories with maintainable and scalable structure, functional programming. Besides, I like to write code in a high-paced and challenging environment with an emphasis on using best practices to develop high-quality software that meets project requirements, budget, and schedule.

Although I am a perfectionist, I accomplish my work within a reasonable amount of time without detracting from the quality of the product. When working with me you can expect a professional, prompt and friendly service.

I have 6+ years of experience in React Native and React development and these are my main skills. On the other hand I have 3+ years of experience in Angular and Vue. In addition to these, I can provide you backend development with express, nest and laravel.

EDUCATION

The Hong Kong University of Science and Technology, Hong Kong — Bachelor's Degree of Computer Science

SEP 2014 - SEP 2018

During campus life, I focused all my activities on studying as deep as possible. This made me a programmer who is always trying to make clean and high-performance code.
