

CEDRIC HASEYAMA

131 Apliu St, Sham Shui Po8 5H7+H8
cedrichada@gmail.com

Responsible full stack web developer with passion, good judgment, time management, and a flexible schedule. Proven experience developing consumer-focused websites using React and Node.js. Aiming to leverage my abilities to successfully fill the vacancy at your project.

Worked with agile teams and I fully understand the trade-off between shipping and perfectness.

As a fast learner, I'm eager to learn. And I really like taking on challenges that put my team in trouble.

WORK EXPERIENCE

JULY 2020 – APRIL 2022

FULL-STACK ENGINEER, KTSOFT

- Maintained and refactored responsive e-commerce SASS platform using JavaScript, React, Redux, HTML5, Tailwind CSS; raised conversation rate 25 – 30% based on 10,000 + visits per month.
- Implemented user-facing homepage with TypeScript, React, and Tailwind CSS, increasing promotion emails sign-up rate by over 5%, generating ~\$3,000 in revenue annually.
- Maintained node-based application using AWS Elastic Beanstalk, Lambda, s3 etc.
- Integrated third party APIs like Stripe APIs into the application.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Monitored and tracked server bugs on AWS CloudWatch and fixed them

JULY 2017 – APRIL 2019

FULL-STACK ENGINEER, SAVE ON DEV

- Structured several internal systems comprising production workflow tracking, as well as design and develop custom REST APIs and GraphQL schemas using Node, Express and Apollo.
- Took part in building a dashboard that analyzes and displays data extracted from AI platform using React and GraphQL.
- Worked closely with a production team on the scope of future products and innovations.
- Translate UI designs in to well organized and structured HTML/CSS compatible with modern browsers.
- Fixed bugs on existing websites and implemented enhancements that significantly improved web functionality
