WORK EXPERIENCE

Sr. Web3 Developer Tectra Technologies

04/2020 - Present

Kuala Lumpur, MY

Tectra Technologies have pioneered customized solutions that have become central components in its client's business success.

Achievements/Tasks

- Developed on-chain & off-chain governance protocol with MERCER-based tokens so that users are able to make decisions of adding new features and modifying current functionalities of the platform.
- Strategic and management consulting for blockchain and cryptocurrency, from ICOs to capital raises to systems design.
- Built and launched Smart Contracts for Genesis NFT, Poda and Marketplace as well. Prefer to use ERC-721 based NFT rather than ERC-1155.
- Also built Staking Rewards contract, so investors earn MONA tokens by staking NFTs and LP tokens.
- Demystified Blockchain technology by offering Blockchain workshops and events. Worked on a Blockchain app that utilizes the Ethereum Blockchain for the creation of a supply chain management system interface using React.js

Jr. Web3 Developer DigixGlobal

02/2018 - 01/2020

Singapore, SG

Digix is a smart asset company that uses Blockchain technology to represent physical gold with tokens.

Achievements/Tasks

- Developed whole smart contract from scratch and past the Audit from SlowMist.
- Implemented NFT fractionalization so that users are able to co-won NFT and decide further steps like sale, auction, airdrop together.
- Implement basic functionalities of NFT Marketplace such as sale, auction, airdrop and used proxy for service fee calculation.
- Worked on a POC for an automation reporting tool using all open source software utilizing ELK stack (Elasticsearch, Logstash and Kibana).

EDUCATION

Bachelor of Computer Science KDU University College

03/2012 - 05/2016

SKILLS

Solidity

Web3.js

React
