Petro Markovich
Full Stack Developer

PROFILE

Results-oriented Web Developer and Blockchain Developer with considerable training and enterprise experience in Web site design and in coding, and testing of Web applications, and in the formation, planning, and implementation of online business ventures.

WORK EXPERIENCE

Blockchain Consultant/Developer | Napoleon IT
(2018.5 – 2020.10)
I have been developing Blockchain solutions since 2018- Smart Contracts, Defi, Ethereum, ERC-20 Tokens, Bitcoin.
During the period while I work for this company, I collaborated with a blockchain development company to build a Pivx-based staking platform. Adhering to the deadlines of a third-party client, we worked to deliver an investment solution.

Cryptocurrency and blockchain team lead analyst. | Alanis Software

(2016.2 – 2018.3)
Work with databases, research, analytics cryptocurrency and blockchain projects. Support and consultation of blockchain

projects and ICO. Development of analytical reports. Data visualization in power BI.

Full Stack Developer | Distillery
(2014.5 – 2015.12)
Duties/Achievements:
• Develop express.js application using node.js
• Angular, React, Vue, Next, Nuxt
• MongoDB, async, ajax, middleware, native/vanilla js, html parsing
• Administration Linux servers
• RESTFull API
• FB/VK/Instagram api - Vanilla JS Frontend.

Full Stack Developer | Open Solutions
(2010.7 – 2013.11)
• Working on redesign and new UI & frontend components development, improvements;
• Worked with React/Redux, CSS/HTML, REST APIs;
• Worked mostly with Implementation UI/UX components, routing and data visualization;
• Complex database-related job with either relational (mySQl) and noSQL (MongoDB) databases;
• Development and maintaining new user-facing features using Javascript technologies;
• Building reusable code and libraries for future use;
• Optimizing application for maximum speed and scalability;
• Colaboration with back-end developers and web designers to improve usability

EDUCATION

Master of Computer Science / Taras Shevchenko National University, Ukraine
(2004.9 – 2009.8)
Relevant Coursework: Operating Systems Architecture, Linux/Unix Programming,Usa bility in Website and Software Design, C++ Programming I & II, Web Page Development, Relational Database Design & SQL, Data Engineering, Advanced Software Programming
